

# Rebuild Instructions

# MagKbe

*The 3D Puzzle with a Magnetic Kick!*

**magnetic**  
LEARNING COMPANY

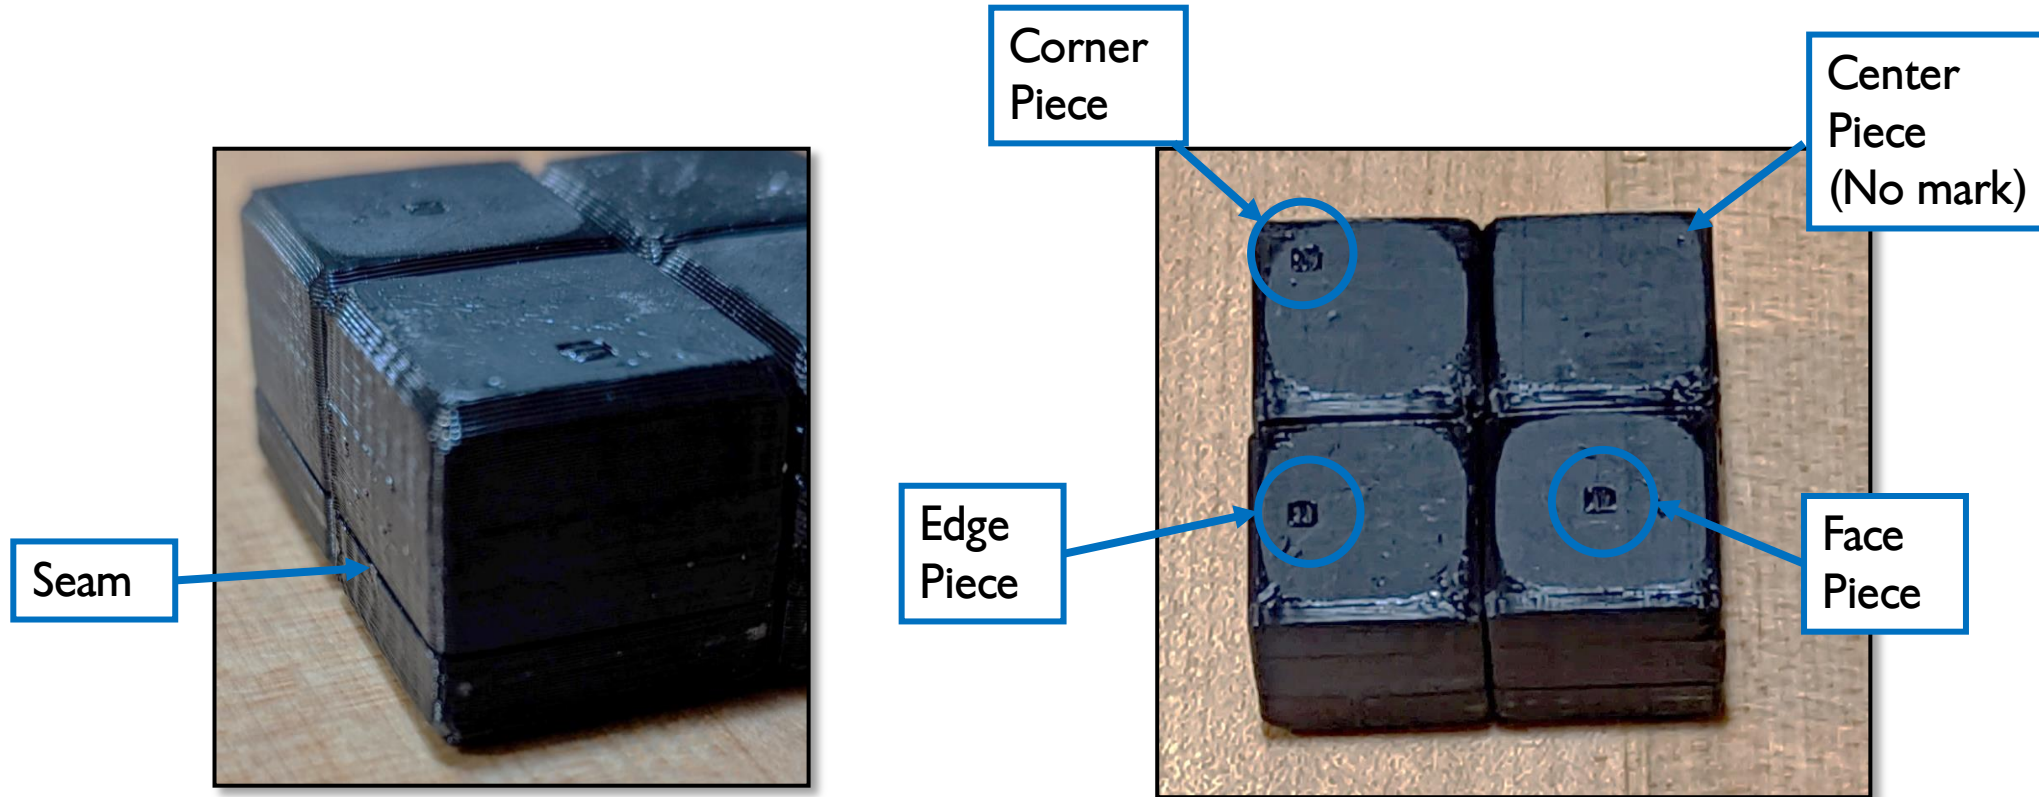

### **Included in Rebuild Kit:**

- (4) MagKube Pieces: Center, Face, Edge and Corner
- (4) Stickers of each color
- Alcohol Wipes

**Begin process by cleaning pieces with alcohol wipe**

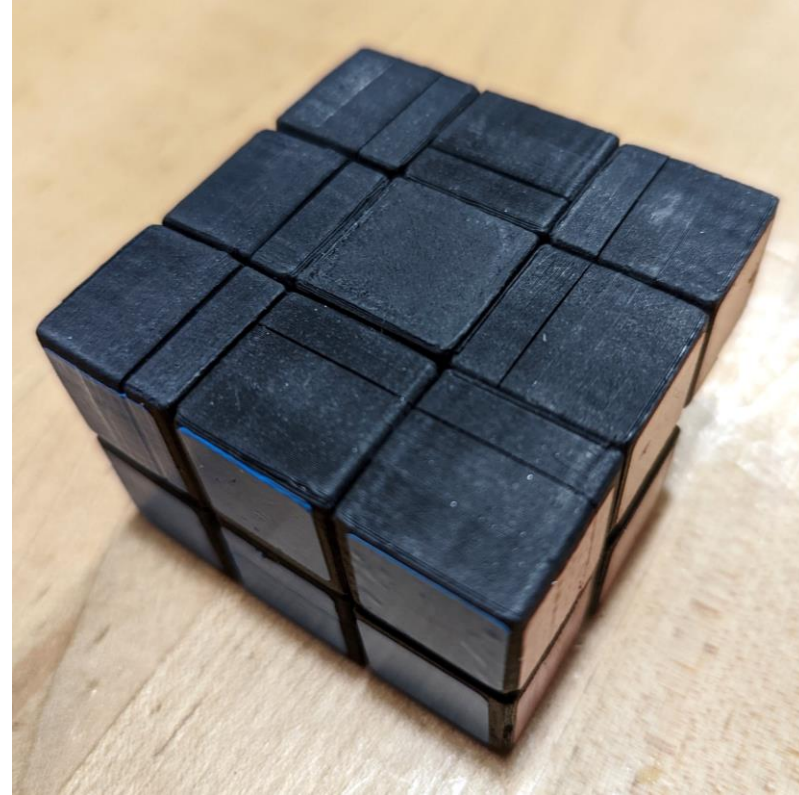

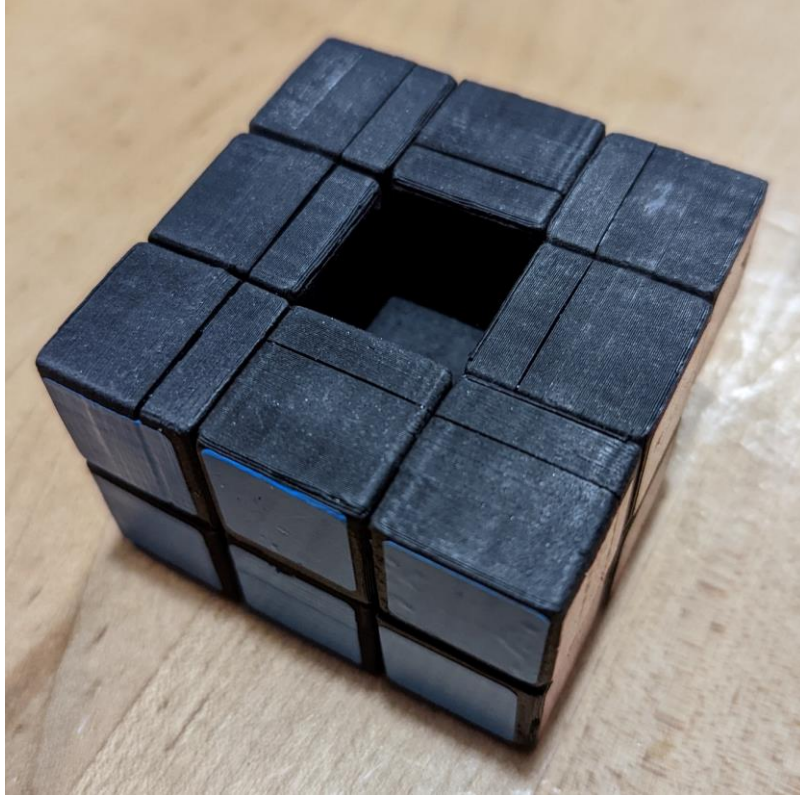

## HOW TO DIFFERENTIATE BETWEEN THE INDIVIDUAL PIECES

With the seams of the parts oriented towards the bottom, the markings (or lack of) on the top faces will indicate if the piece is a center, face, edge or corner

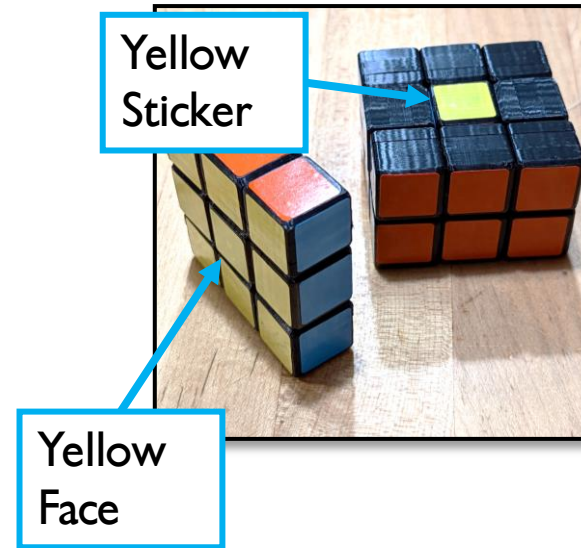

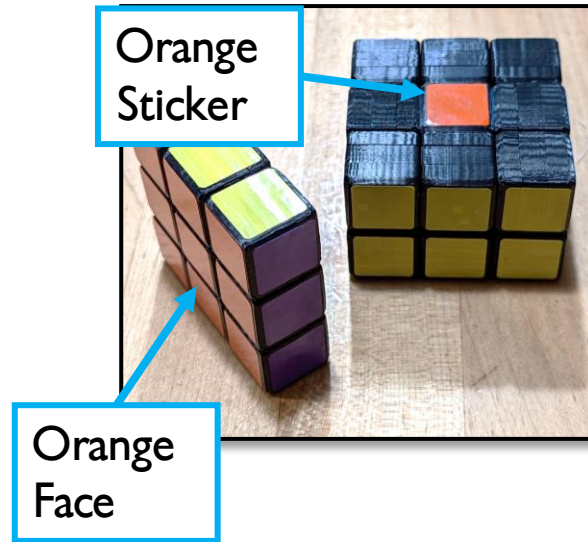

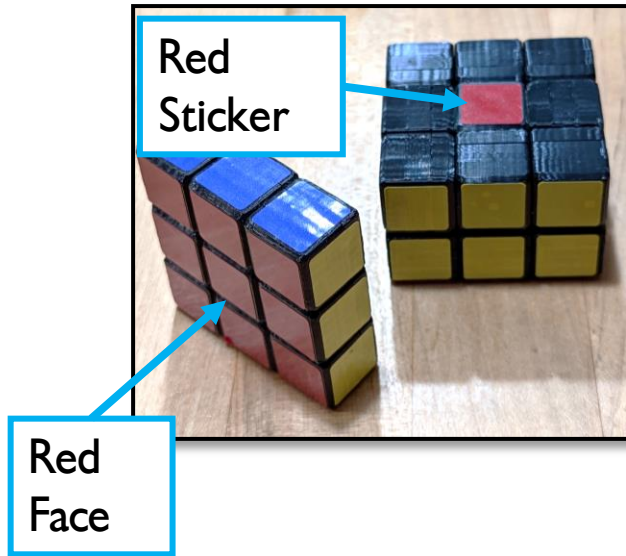

## BUILDING THE CENTER PIECE

Twist off the any face of the MagKube and insert the blank center piece.

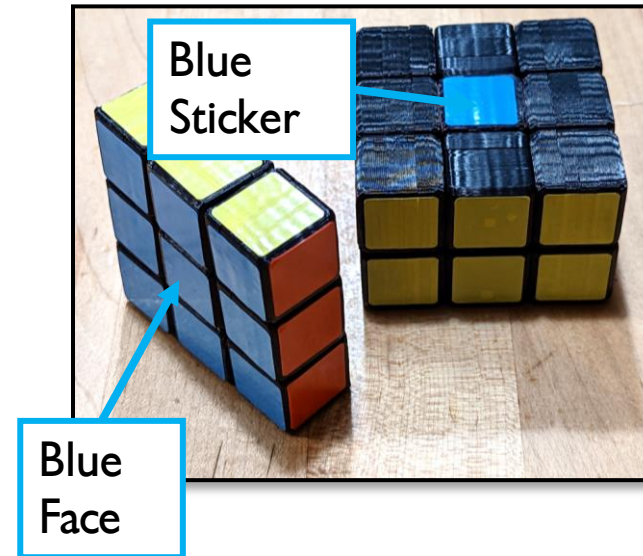

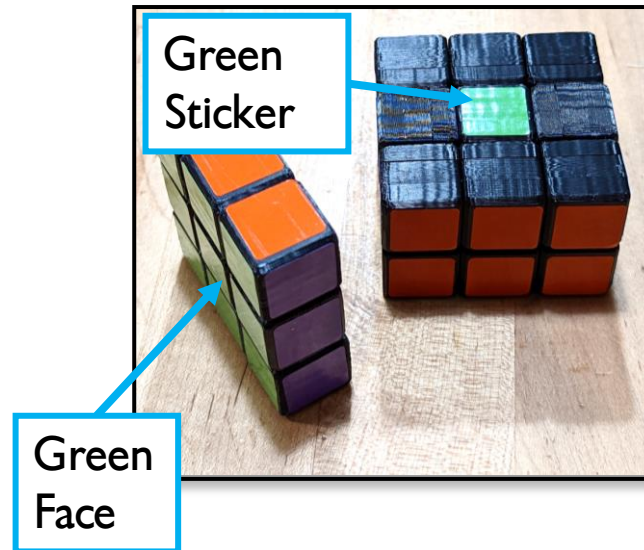

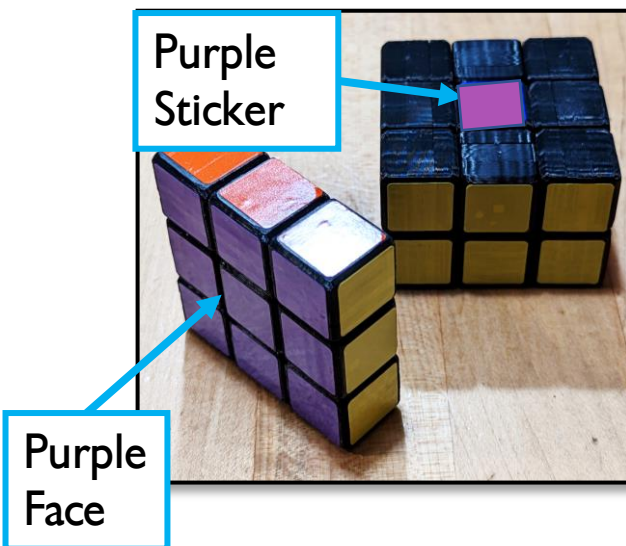

**The orientation of this piece does not matter**  
(This is true ONLY for the center piece)

## BUILDING THE CENTER PIECE

**For each of the 6 faces:**

- 1) Twist off face
- 2) Apply sticker that matches that face
- 3) Replace face

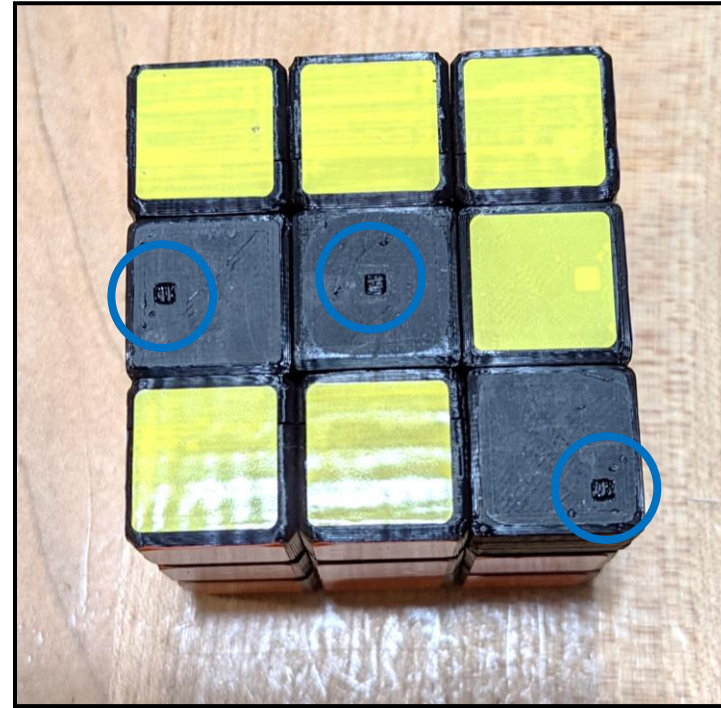

## BUILDING THE FACE, EDGE AND CORNER PIECES

Orient the MagKube so that the missing piece is on the top face

Place the replacement piece so that the marking is oriented as shown

**For each of the 6 faces:**

- 1) Twist off face
- 2) Apply sticker that matches that face
- 3) Replace face

## BUILDING THE FACE, EDGE AND CORNER PIECES

Apply the stickers that match the colors of the surrounding faces

**YOUR MagKube IS REBUILT!**
